## **PERSONAL STATEMENT**

I am a self-taught skilled front-end web developer with a wealth of knowledge, experience and passion surrounding HTML, CSS, Git, and JavaScript. I have experience utilising these skills in responsive web development projects, which can be seen on my website/GitHub. I have also recently begun to employ the ReactJS library to enhance my own personal projects. I am an extremely adept learner, and I am always on the lookout for ways to develop my repertoire of professional skills even further with the ultimate goal of being able to put these to use in a career setting.

Outside of web development, I am also studying script writing in C# within game engines such as Unity, alongside 3D CGI software such as Blender and Substance Painter.

I am motivated to find a challenging junior position with an exciting employer where I will be able to refine and expand upon my programming knowledge, learn and participate in an active, modern development environment, and ultimately, build a career.

## **ADDITIONAL INFORMATION**

Other relevant skills, personal information:

Full Clean Driving License	Held since November 2014 and car owner
Software Package Experience	Word Excel PowerPoint Outlook Mail

## **INTERESTS**

Alongside my academic interest in history, I also enjoy the practical side as I love to travel and visit other countries and learn about their respective cultures. Reading, amateur scale-modelling and trips to museums also stem from my love of history.

I also enjoy computing and ICT in general. Alongside my interest in videogaming, I have assembled computers from scratch for myself, as well as for family and friends. I have also assisted friends and family with gathering the necessary hardware to upgrade their existing computers, and have carried out small-scale repairs, all through self-taught methods.

Alongside teaching myself programming/web development, I have also explored 3D creation toolsets such as Blender and Substance Painter. My portfolio of my work can be seen [here](#).

Physical fitness and sport also play a big role in my life as I visit my local gym regularly and enjoy playing football with my friends.
